

Covid-19 Clinic Policies

The health and safety of our patients and staff is our top priority.

In response to the Covid-19 pandemic and in accordance with the current CDC and Ohio Department of Health guidelines, Body Dynamix Physical Therapy has developed additional procedures to enhance our patient's safety while maintaining a healthy clinic environment. Rest assured we will continue to follow the latest updates regarding the coronavirus and update policies and procedures as indicated.

Enhanced safety procedures include:

- ✓ Increase time between scheduled appointments to properly sanitize patient rooms and high-tough areas before and after each visit.
- ✓ Screening patients during the scheduling process and before each treatment begins. Please feel free to reach out with any questions or concerns.
- ✓ Staff will wear appropriate personal protective equipment and maintain hand washing procedures during all patient appointments and treatments
- ✓ Visitors/family will be limited/eliminated in both the clinical area and waiting rooms. Under-age patients will be allowed a single parent/guardian with pre-approval and must observe all safety procedures.

We are here to assist you in any way we can and look forward to helping you reach your wellness goals.
